Summary

2

EQUIP is a new program by US Department of Education to provide federal loans and grants to joint university+bootcamp programs

Hack Reactor Core is a leading bootcamp system looking for the right institutional partner to create EQUIP-eligible program

EQUIP Program

EQUIP = Educational Quality through Innovative Partnerships

Experimental program from US Department of Education Provides access to federal loans and grants to joint university + bootcamp programs

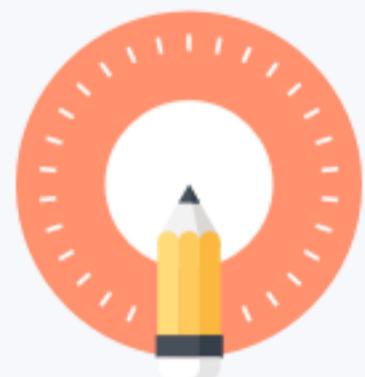

-  December 14, 2015 — Letter of Interest
-  February 2016 — Full Application
-  May 2016 — EQUIP programs are selected by DoE
-  July 1, 2016 — EQUIP funds are available

Full description: <http://bit.ly/DoE-EQUIP>

Why Participate in EQUIP

5

Reputation

Accepted institutions become leaders in the emerging space of accelerated learning programs

Social Mission

Early bootcamps were limited to affluent students, EQUIP makes them accessible to mainstream audiences

New Revenue Stream

Bootcamp programs bring new revenue for institutions, both from federally-supported and self-paying students

Pedagogy Innovation

Accelerated learning model is a major trend in Higher Ed, EQUIP helps bring it to your institution

Hack Reactor Core

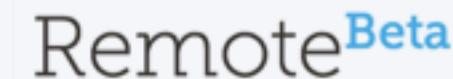

Hack Reactor Core

7

Hack Reactor Core is a leading bootcamp system with exceptional metrics in completion, job placement and starting salaries.

- Flagship: highly selective, 12 weeks/60-70 hours per week program
- Number of gateway and prep programs
- San Francisco, Los Angeles, Chicago, Austin, Berkeley + Online
- Job assistance and extensive hiring network
- Tuition \$10-20K, average starting salary for graduates ~\$100K

Why Partner with Hack Reactor Core?

HRC is a national leader in accelerated learning programs

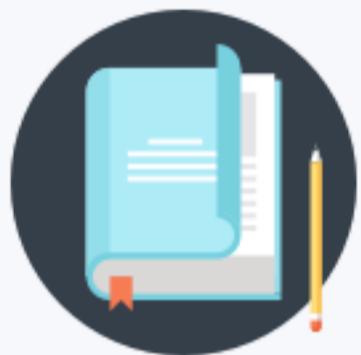

- Multi-stage enrollment system focused on ability, not previous credentials
- Cutting edge curriculum with focus on “most hireable” set of technologies
- Strong student support system with industry-leading completion rates
- Innovative model for job placement, deep hiring network, \$100K+ average starting salaries
- Successful experience in geographic expansion and new program creation

Right partner for EQUIP

- Was part of DoE’s summit that led to creation of EQUIP
- Has dedicated team for EQUIP program creation
- Ready to do all the legwork for EQUIP application and cover upfront costs

Potential Formats for Joint Programs

Campus-Based Bootcamp

Targeting inbound transfer students, community college alums, recent drop-outs

Up to 100 students in Fall 2016, up to 300 in Spring 2016

On graduation: job placement or transition to Bachelors program (with credit recognition)

Online Bootcamp

Focused on high school students with advanced placement credit for Computer Science

Bootcamp Major

Bootcamp program for as a capstone project / final semester for seniors

Results in highly marketable specialization such as “Mobile Engineer” or “Full-Stack Engineer”

Next Steps

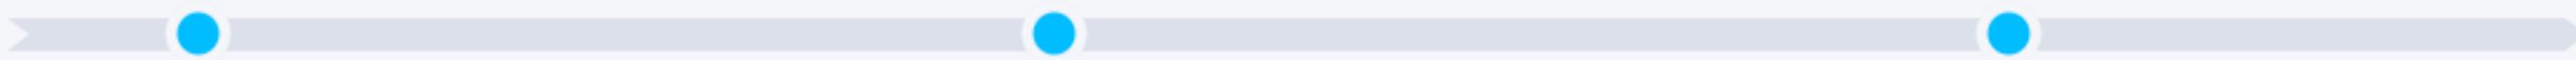

Action Plan

Next month

- Principal decision
- Initial program design
- Preparing letter of intent and supporting docs
- Signatures and submission – **by December 14**

January-February

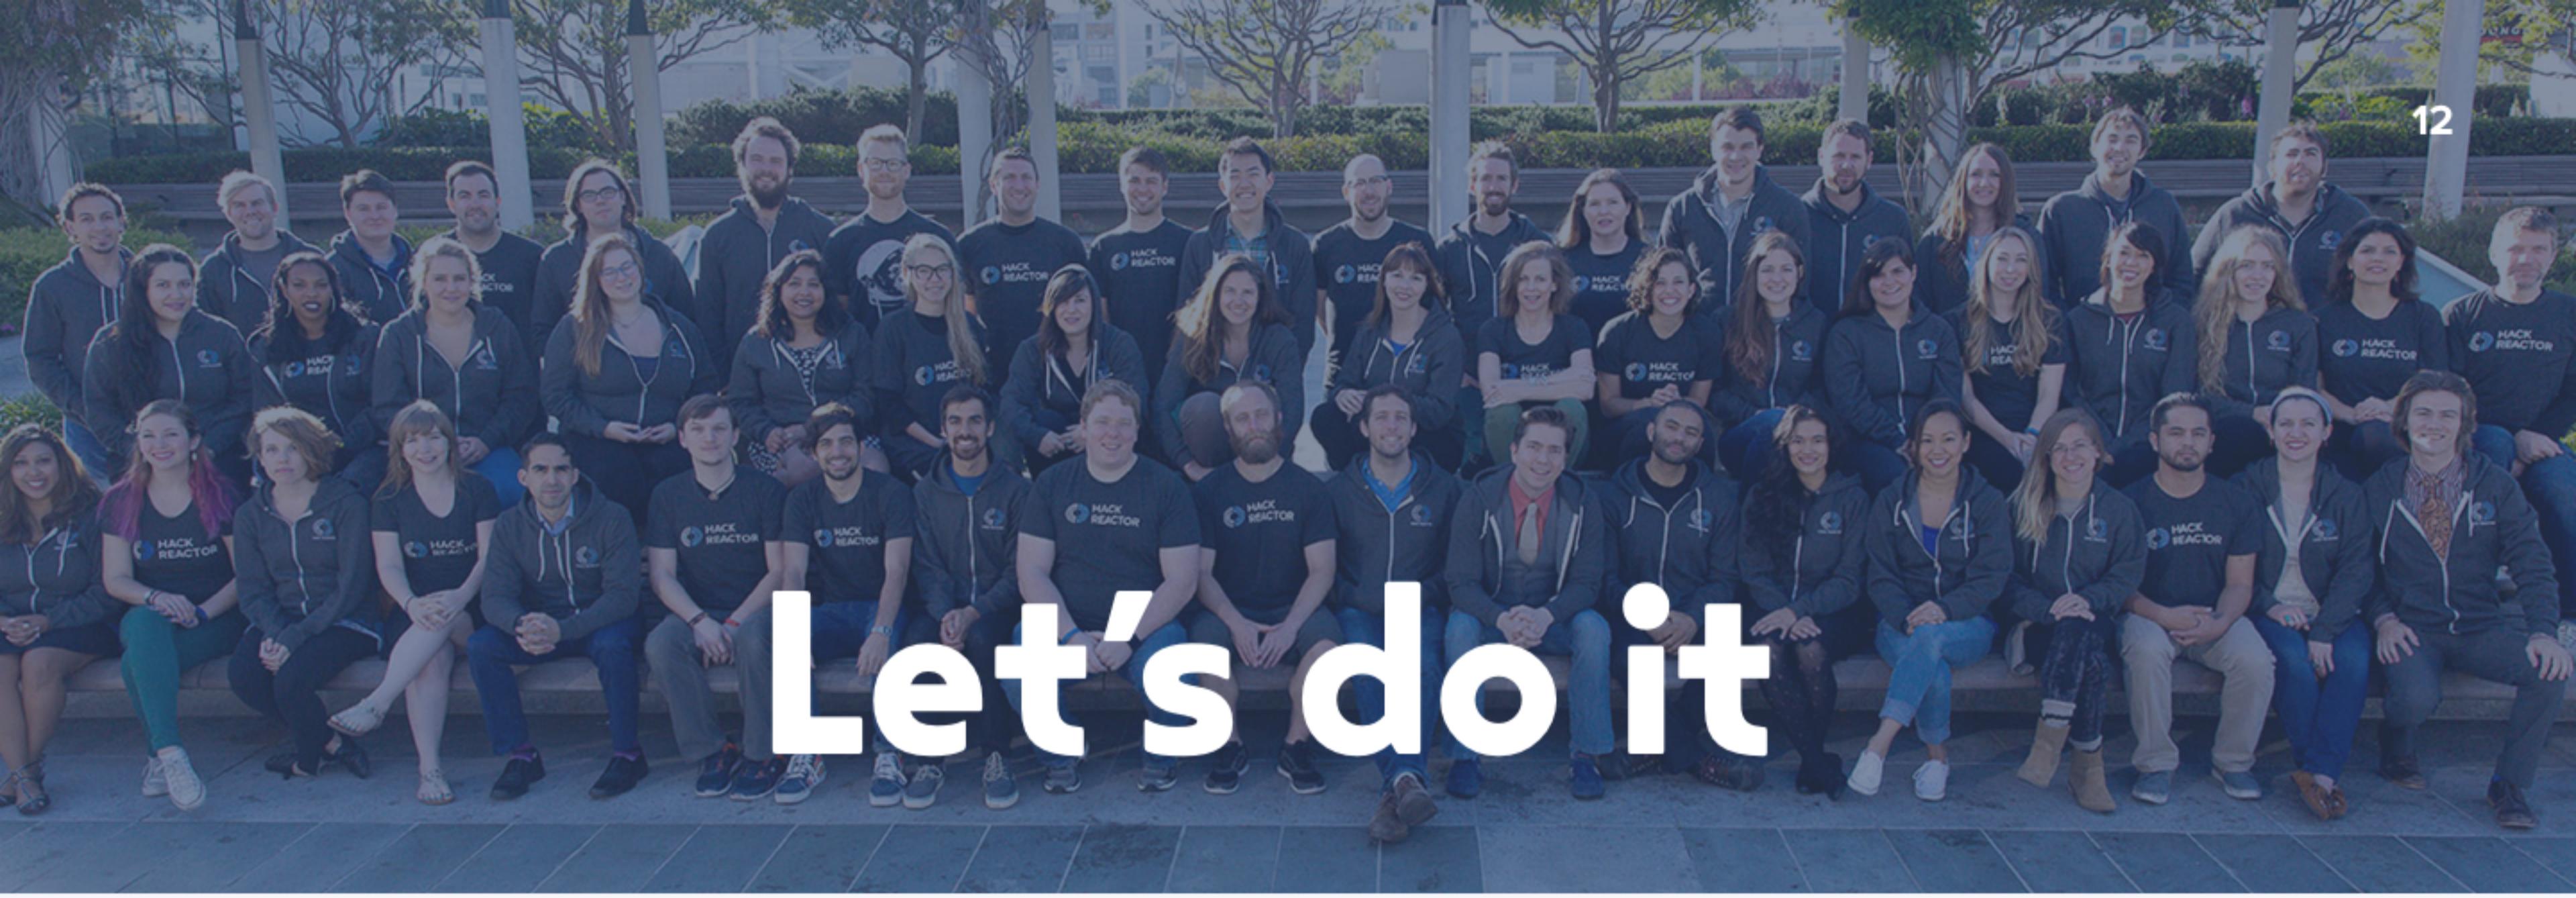

Formal contract

Detailed program design

Implementation plan

Let's do it

“ Best bootcamp programs transform careers and change lives.
Hack Reactor partnership with your institution can make them accessible for everyone. ”

Ruan Pethiyagoda

Chief Strategy Officer, Hack Reactor Core
